Applicant requests that Eric Brown be deleted as an inventor in the above-identified nonprovisional patent application under 37 C.F.R. § 1.48(b) because his inventions are no longer being claimed in the application. He was correctly named as an inventor in the application as filed, but the prosecution of the application resulted in the cancellation and amendment of the claims, so that fewer than all of the currently named inventors are the actual inventors of the invention currently being claimed in the application. The correct inventors of the currently claimed invention are Michael A. Apicella, Jennifer L. Edwards, Bradford W. Gibson and Karoline Scheffler.
